FREE Installation (standard installation only) x **FREE On-site warranty** (12 months)

Home care / NDIS package-funded product

Lightman Group Pty Ltd 27 Sette Cct, Pakenham, Vic 3810 www.smarto.net.au

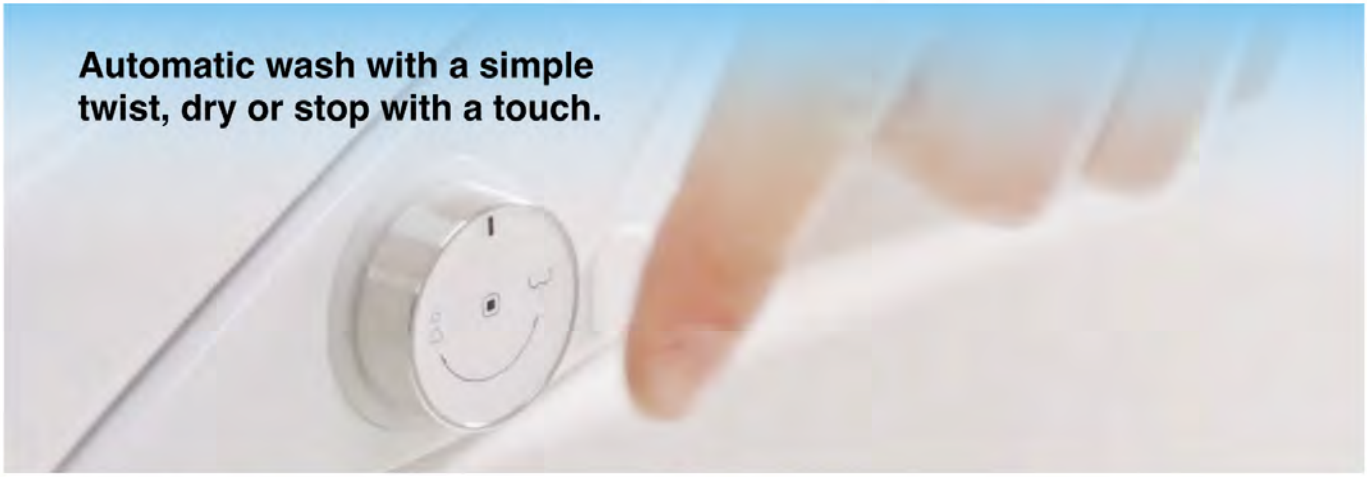

SMARTO®

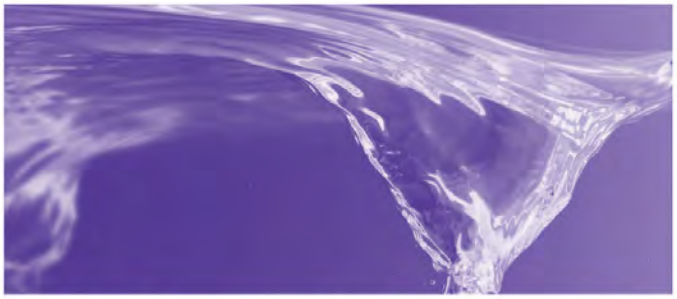

Offers One-stop Installation Service.

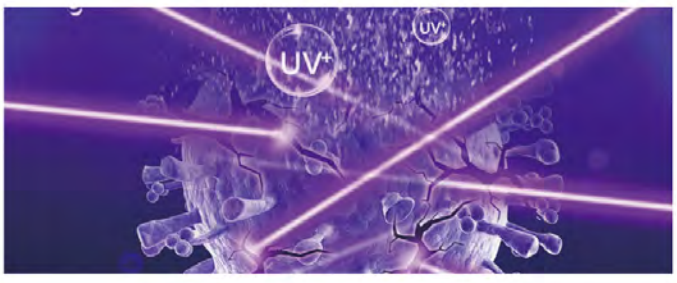

Please consult our sales team for details!

A Trusted Partner for Multiple Service Organizations

UV Shield

SMARTO® patented UV shield technology effectively kills bacteria, viruses, and harmful microorganisms in water, ensuring a clean water source. The UV function activates automatically with cleaning, requires no chemicals, has no side effects, requires no consumables and the **antibacterial rate is up to 99.99%.**

(Patented technology, patent number ZL201720055950.3)

*only available on 7 Series products

The remote control style is subject to the actual product.

	7 Series X7-AU / B7-AU	5 Series X5-AU / B5-AU

Products in the same series (e.g., X7-AU and B7-AU) have the same functions but fit toilets of different sizes. SMARTO® installers will bring both sizes to confirm the best fit on site.

Hygiene

UV Shield
(7 Series only)

Nano Shield

SMARTO® patented Nano Shield technology uses photocatalyst nanotechnology for enhanced deodorization. Activated carbon absorbs odours, while photocatalysts sterilize and purify for a higher level of cleanliness without side effects or consumable replacement needs. The **antibacterial rate is as high as 99.99%.**

(Patented technology, patent number ZL021620889162.X)

SIAA Anti-bacterial Seat

Antibacterial silver ions are added to the upper and lower seats, and the **antibacterial rate is as high as 99.99%,** certified by the SIAA of Japan.

Self-cleaning Nozzle

The nozzle self-cleans before and after each use, avoiding residue buildup.

(The 7 series products will use UV shield antibacterial water to automatically turn on the warm water sterilization mode.)

Nozzle Cleaning

The nozzle extends under running water for easy cleaning.

(The UV shield antibacterial water will be applied to 7 Series products for this function.)

Double Purification Filters

Helping remove impurities, rust, and particles from tap water.

Convenience

"Smart-One" Knob
(7 Series only)

Remote Control, No Need to Bend Over

Operate the 7 Series effortlessly with the 'Smart-One' knob.

Soft-close Lid

A soft-close lid allows you to experience quieter and more intimate time.

Auto Night Light

- Auto turn on and off based on ambient light, saving time and energy with minimal power consumption.
- No need to turn on the main bathroom light at night, preventing bright light from disturbing sleep.
- No need to manually turn lights on and off, avoiding energy waste or forgetting to switch lights on.

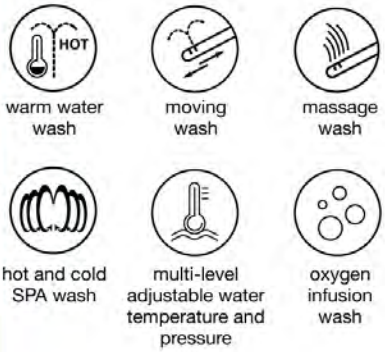

Comfort

Instant Heating

Enjoy constant warm water with instant heating for a consistent supply.

Multiple Cleaning Modes

A variety of cleaning modes for different users and preferences.

Oxygen Infusion Wash

Experience the power of ultrafine bubbles infused into the cleaning water. This innovative technology creates a dense foam that enhances flow, minimizes water usage, and delivers a stronger, gentler, and more thorough clean.

With upgraded technology, enjoy:

- Denser, more effective bubbles
- Increased air injection for better cleaning
- Reduced water consumption
- A softer, more comfortable touch

Multi-Level Seat Heating

Keeps warm in winter and can be turned off in summer to save energy.

Warm Dryer

Power Saving

Standby power consumption of only 0.05 kWh per day.

Safety

Inductive Seat Operation

The device only activates when it senses someone seated, preventing misuse by children or pets.

Preparation before purchasing

How to confirm the right model for your toilet?

Adaptation Type:
Products in the same series, such as X7-AU and B7-AU of 7 Series, have identical features but fit different toilet sizes.

X7/X5 — Distance A >50cm
B7/B5 — Distance A=46-50cm

SMARTO® installers will bring both sizes to confirm the best fit on site.

SMARTO® offers free standard installation. However, additional charges will apply for services such as changing water fittings, drilling holes, adding extra cable trunking, installing a new GPO, or performing special installations for concealed in-wall water cistern toilets.

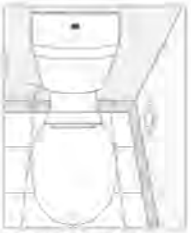

SMARTO® also provides free on-site service within designated areas. For locations outside these areas, a fuel surcharge or additional travel subsidy will apply.

Please provide your exact address and send the following photos to sales for an accurate quote:

Please follow the instructions below to take a picture of your toilet

Distance A
(Put the ruler as illustrated and take a picture.)

Toilet front view
(Ensure tank and water valve are visible)

The water valve
The hard metal water connector will be replaced. (Extra charge).

Distance to the power point
(Please take a video to show the distance.)

Please confirm:

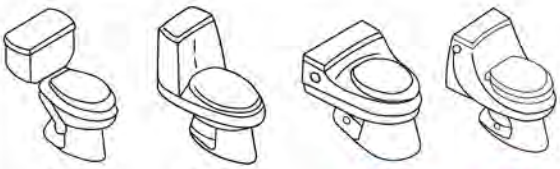

- Is it a concealed water tank? ☐
- Do you use rainwater for flushing? ☐

(Not all rain tanks are connected to the toilet, if unsure, we will check at the time of installation).

- Do you use a recycled water system (purple water meter)? ☐
  If you use recycled water, take a picture of the distance from the toilet to the nearest sink mixer.
- Is there a hard metal water connector? ☐
- Do you prefer to trunk the cables or install a GPO? ☐

Please check the shape of your toilet

YES YES NO NO

Concealed water tanks incur extra fees.

Square toilets may not be fully covered.

Remark:

1. All SMARTO® products are equipped with a built-in check valve that complies with Australian laws and standards, eliminating the need for RPZ installation.
2. If a toilet seat raiser is being used, it will be removed during installation.
